RESPONSE TO RESTRICTION REQUIREMENT
MADE UNDER 35 U.S.C. § 121

Commissioner of Patents and Trademarks
BOX RESPONSE
Washington, D.C. 20231

Dear Sir:

This communication is responsive to the restriction requirement made under 35 U.S.C. § 121.

THE RESTRICTION

The Examiner has required election of a single invention under 35 U.S.C. § 121.
The inventions found to be separate and distinct by the Examiner are as follows:

Group I, claims 1-44, 49 and 50, drawn to a method of making a phosphor film, class 427, subclass 66;

Group II, claims 45-48, drawn to a phosphor material and display containing a phosphor material, class 428, subclass 690.

ELECTION

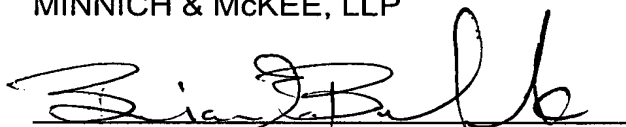

In response to the restriction requirement, Applicant hereby elects, with traverse, the invention of Group I, claims 1-44, 49 and 50.

Applicant's traversal is based upon the fact that claim 46, part of Group II, as presented by the Examiner, is dependent upon claim 24, which is part of Group I. As such, Applicant requests placing claim 46 with the elected invention of Group I.

CONCLUSION

Applicant believes this communication to be fully responsive to the Office Action. Early examination and notification of allowability are earnestly solicited. The Examiner is encouraged to contact the undersigned should any issues arise herein.

Respectfully submitted,
FAY, SHARPE, FAGAN,
